

RACE AGAINST THIEVES

TEAM 4

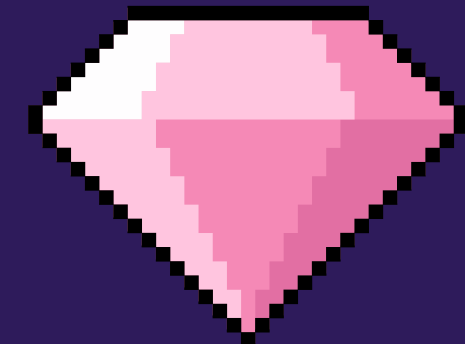

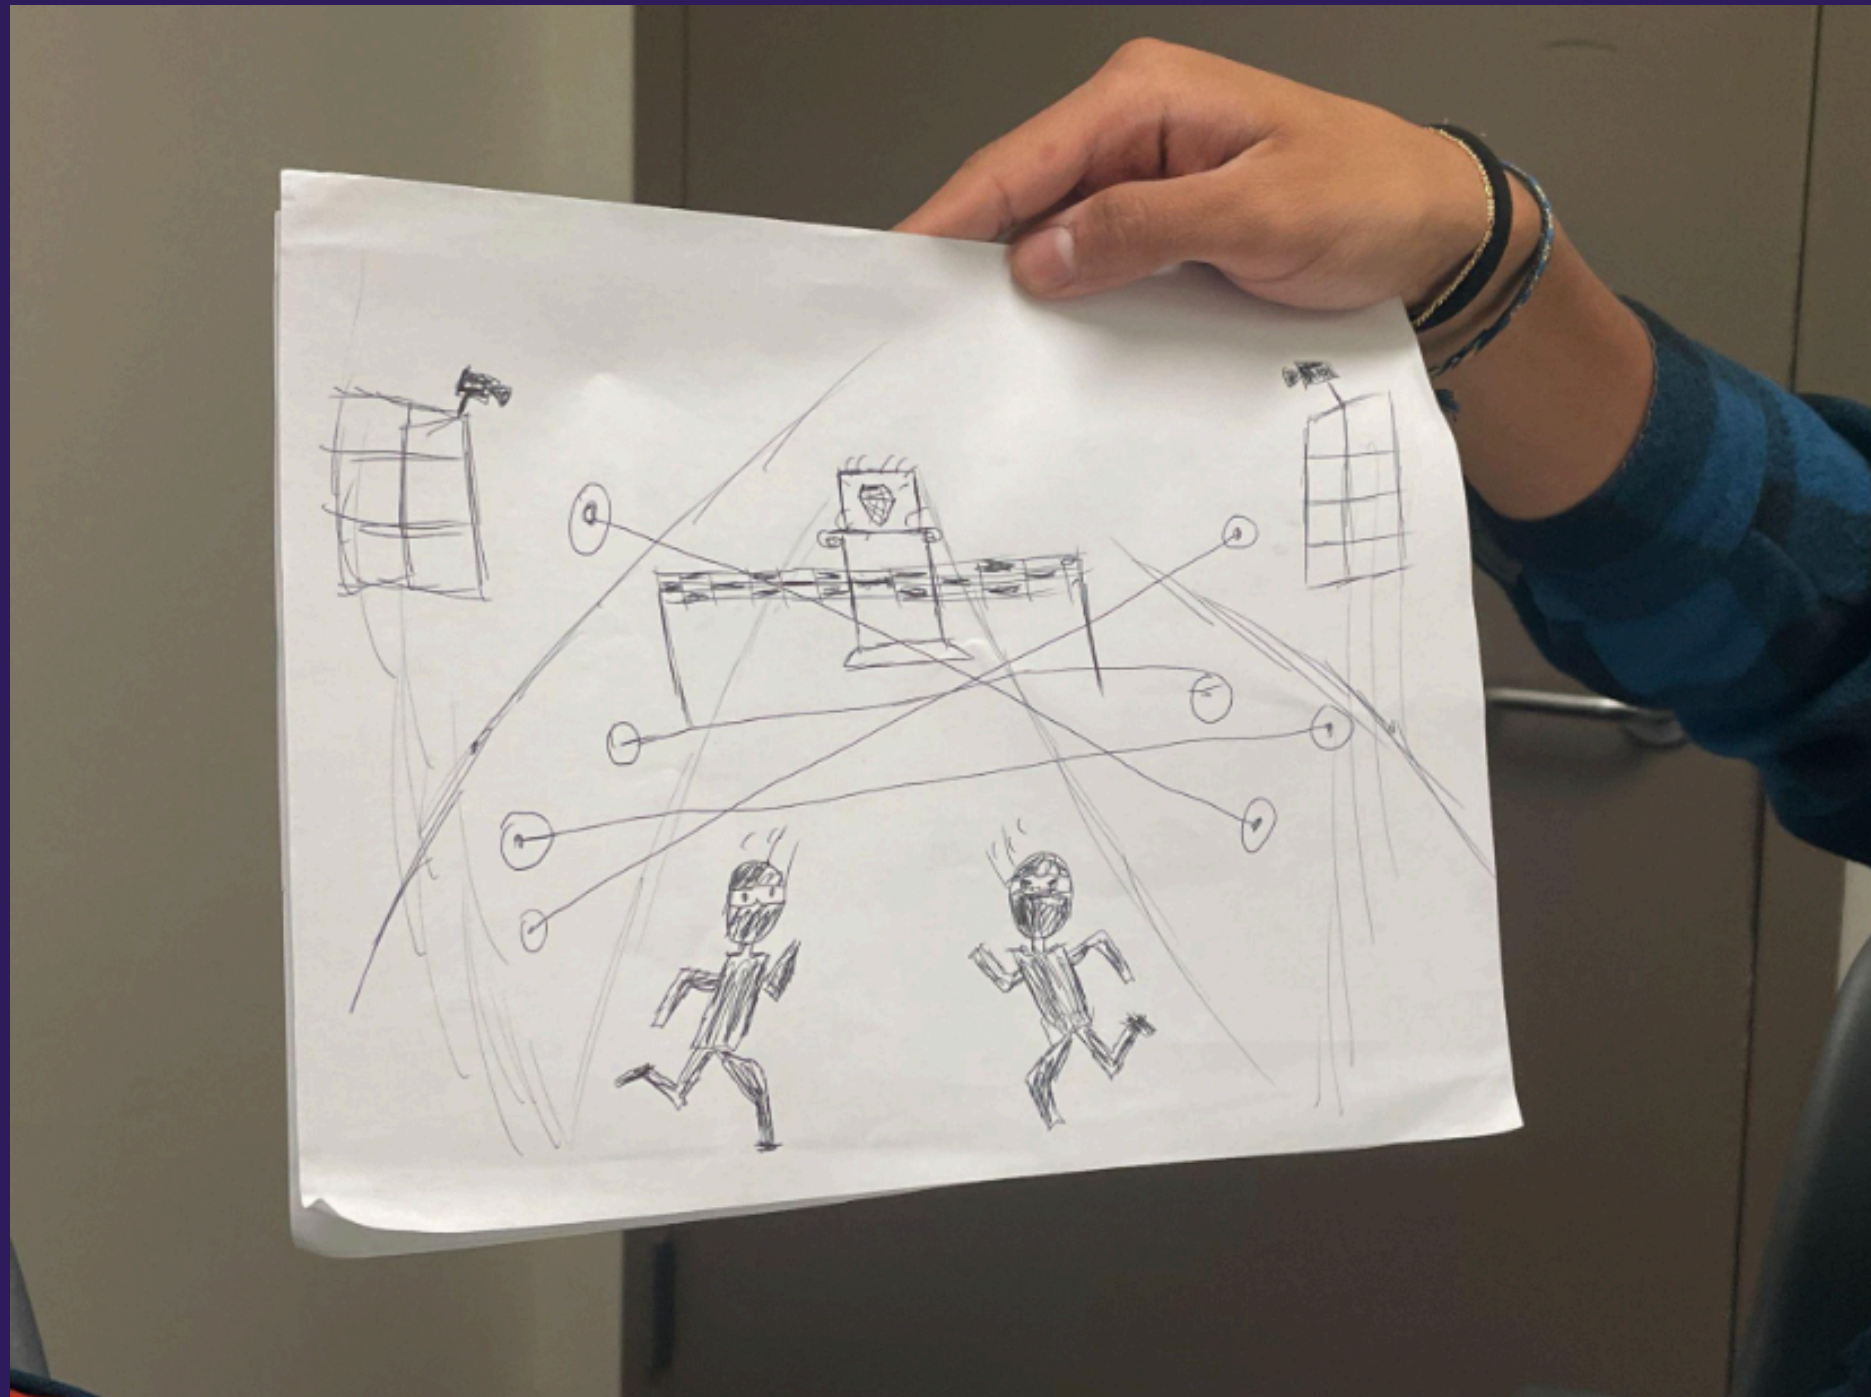

EXPERIENCE GOAL

The players will feel intense competition and tension as they try to escape the museum with the jewel.

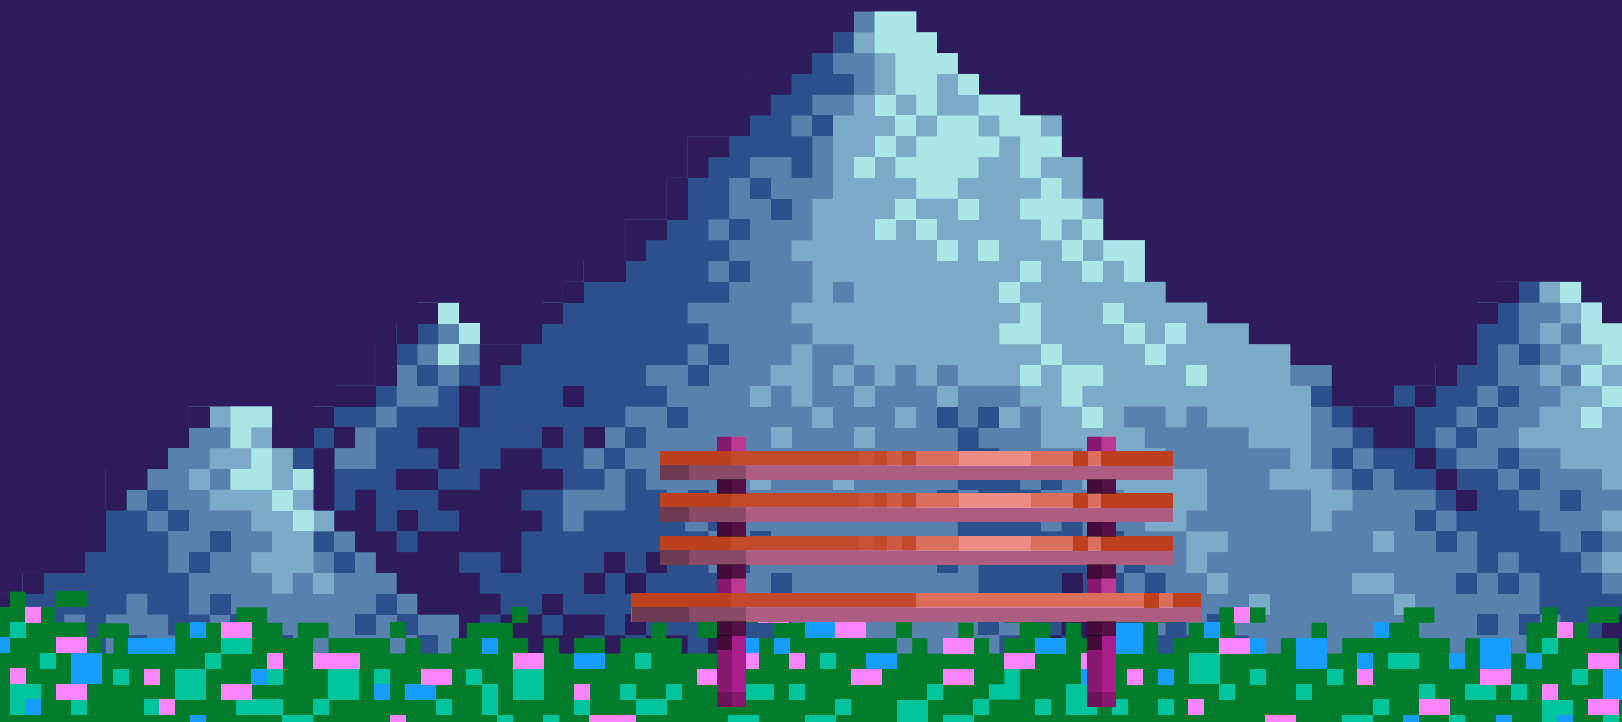

HOW WE MET OUR EXPERIENCE GOAL

- Drafting the game and its mechanics
- Building tension within the race of the game

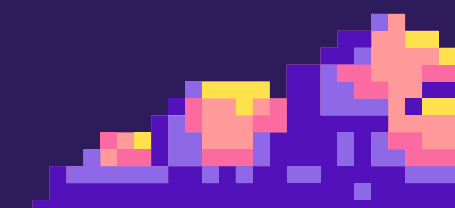

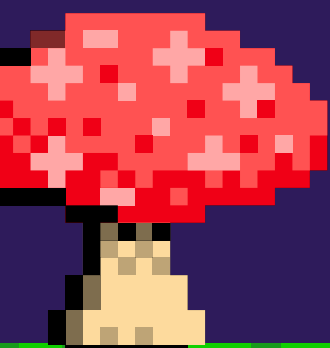

- Internal group playtesting
- Experienced the competition/discussed improvements

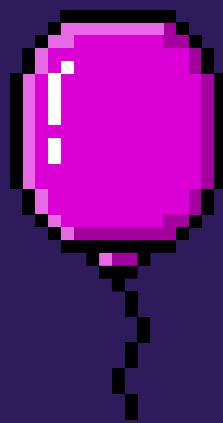

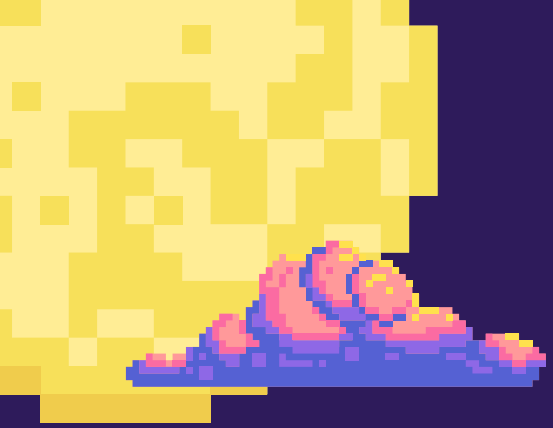

- First class playtest
- Observed how players interacted with our game
- Tension was not as high as we intended for it to be

- External playtesting
- Tested the new mechanics
- Could observe the difference between the in class and external test groups

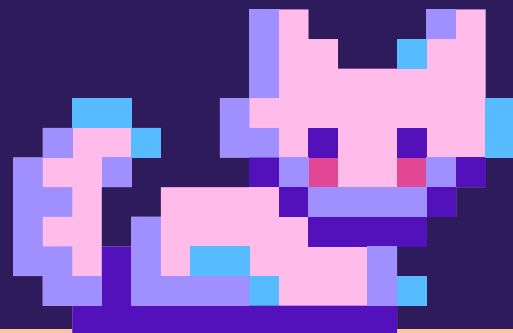

PLAYTESTING
OUTCOMES &
EXPERIENCES

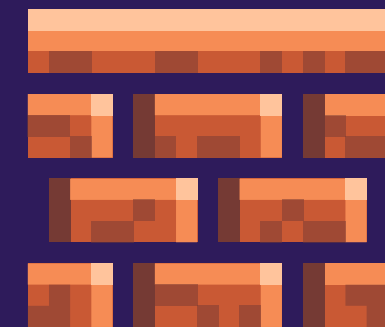

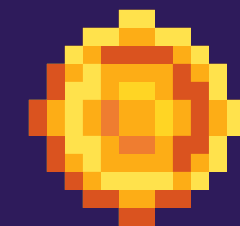

OUTCOME VS GOAL

- Our experience goal was successful for the most part.
- Players felt competition and tension due to the uncertainty involving the cards
- Ability to battle for the jewel also created enhanced competition

OTHER EXPERIENCES

- Frustration due to one specific card (Disguise card LoL)
- Laughter(because of disguise card)
- Confusion over certain aspects of the game
- Liked pace of game
- Felt some mechanics were a bit overlooked
- Liked the box art

NEXT STEPS

- **MAKE LASERS MORE IMPACTFUL**

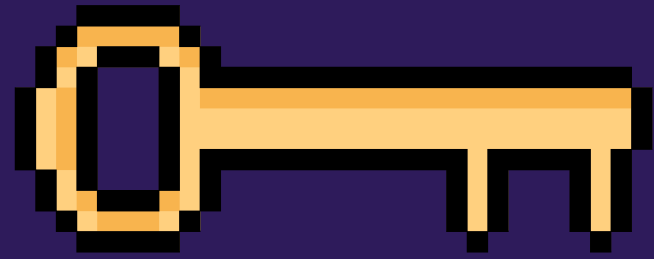

- Remove all laser cards
- Determine the movement of laser by rolling a die every turn

- **IMPROVE ART DESIGNS**

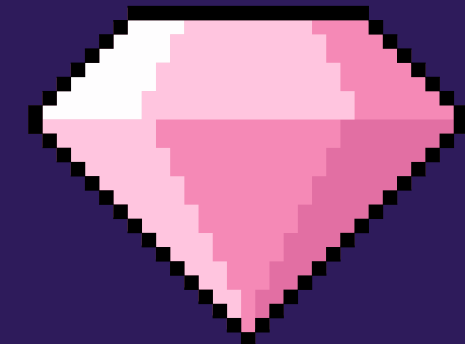

- Laser can be re-designed as a sliding strip on the board
- Design our own “thief” pieces

- **ALLOW PLAYERS TO TURN AT ANY TIME**

- **LIMIT THE NUMBER OF DISGUISE CARDS**

TAKEAWAYS

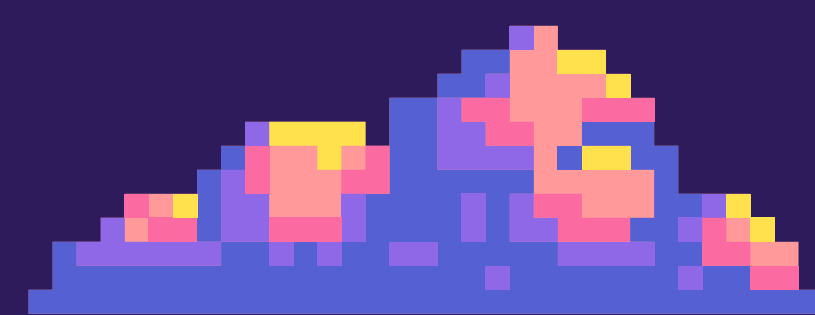

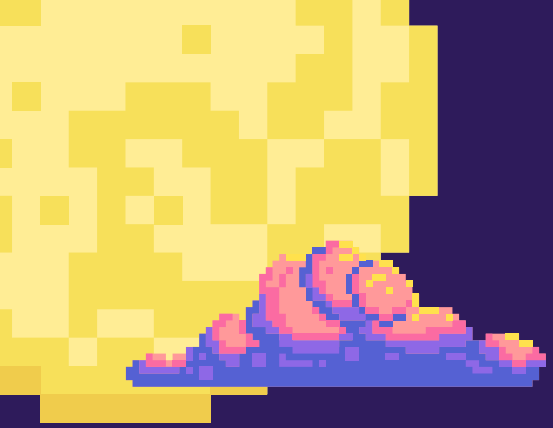

TAKEAWAYS ARE: DESIGN

- Specificity
- Creativity
- Accessibility

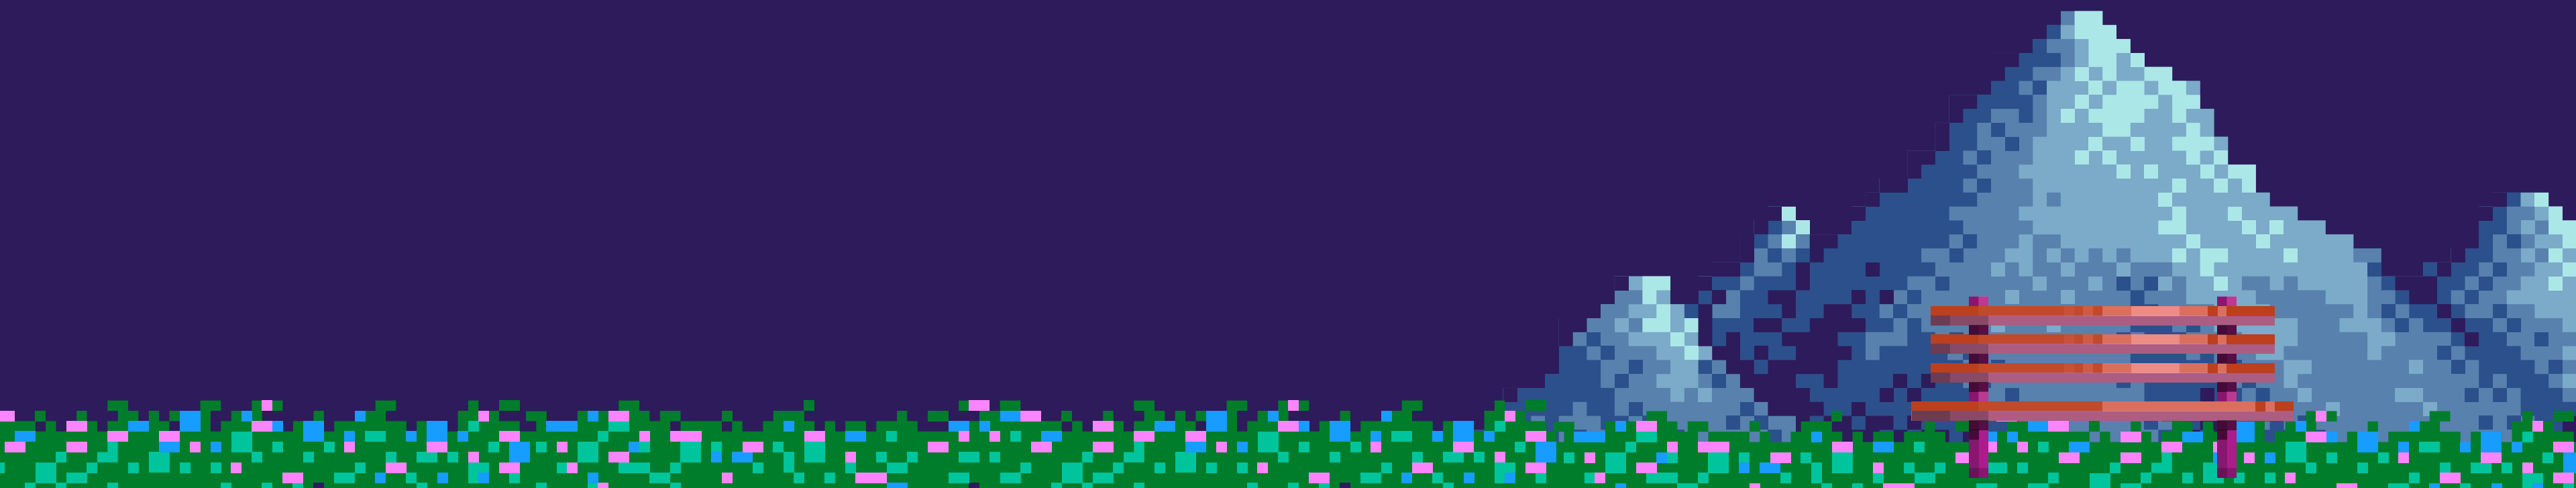

S.C.A.

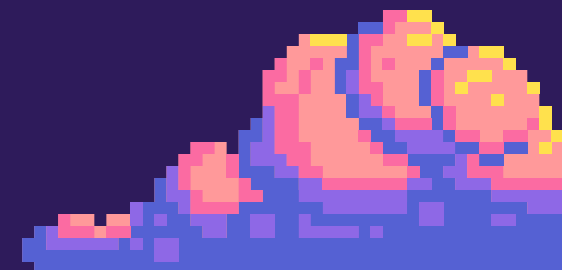

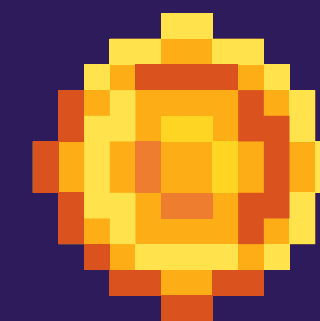

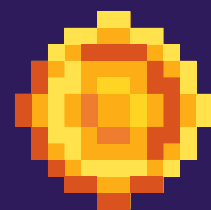

TAKEAWAYS ARE: TEAMWORK

- Synchronization
- Communication
- Innovation

S.C.I.

THANK YOU!
