

YOKAI PARADOX

Joshua Guico, Ray Pan, Chloe Wang, Annie Yan

About our game

Three quirky exorcists, seasoned in the supernatural (and known for their peculiar tactics), were hired to investigate the theatrics. Working for competitive wages, they geared up for an adventure through the museum, determined to unravel Aiko's story and bring an end to her sidesplitting reign.

A Museum Escape Odyssey

Tuesday

BREAKING NEWS:

Shibuya Museum Suspected of Housing a Yokai

In a whimsical journey of art and hilarity, the renowned actor Aiko Nakamura's exaggerated performances led her to an unfortunate fate. While admiring the Shibuya museum's paintings, she transformed into a mischievous Yokai, capable of possessing paintings, turning a prestigious museum into a comedy performance.

Three quirky exorcists, seasoned in the supernatural (and known for their peculiar tactics), were hired to investigate the theatrics. Working for competitive wages, they geared up for an adventure through the museum, determined to unravel Aiko's story and bring an end to her sidesplitting reign.

As they navigated the dual realms of the museum, the exorcists sought to break the curse binding Aiko to the night dimension. The amusing mystery behind Aiko's transformation unfolds in this lighthearted tale of acting and the supernatural. Get ready for a board game filled with ghostly gags, spectral slapstick, and a whole lot of exorcist absurdity!

Our game's project goals

Experience goal: The player will feel entertained by the various games and tricks played by "Yokai", as well as the delicate aesthetic design of the game board and materials. The "Double-sided, flippable" game board would allow the player to experience two different game mechanics within one game

HOW WE DEVELOPED OUR GAME

How we developed our game - W12

- On week12 we spent most of our time to brainstorm for the general directions, such as main game mechanics, dramatic elements, and player experience goal, that we would like to work towards for our game.

Working from 6pm to 12 am for our first prototype

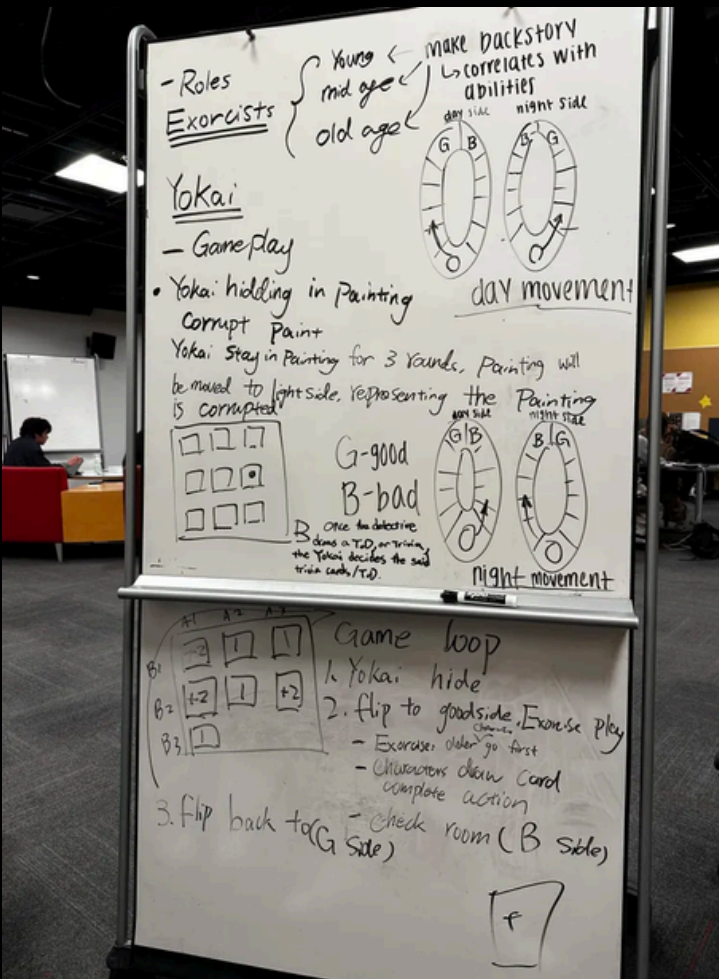

First group meeting, game mechanics and dramatic premises was being decided.

- However, as we were building our prototype, we realized that our game is not playable due to the uniqueness of our game board (Double sided). We had trouble to come up with two relatable game mechanics for each side of our flippable game board

How we developed our game - W13

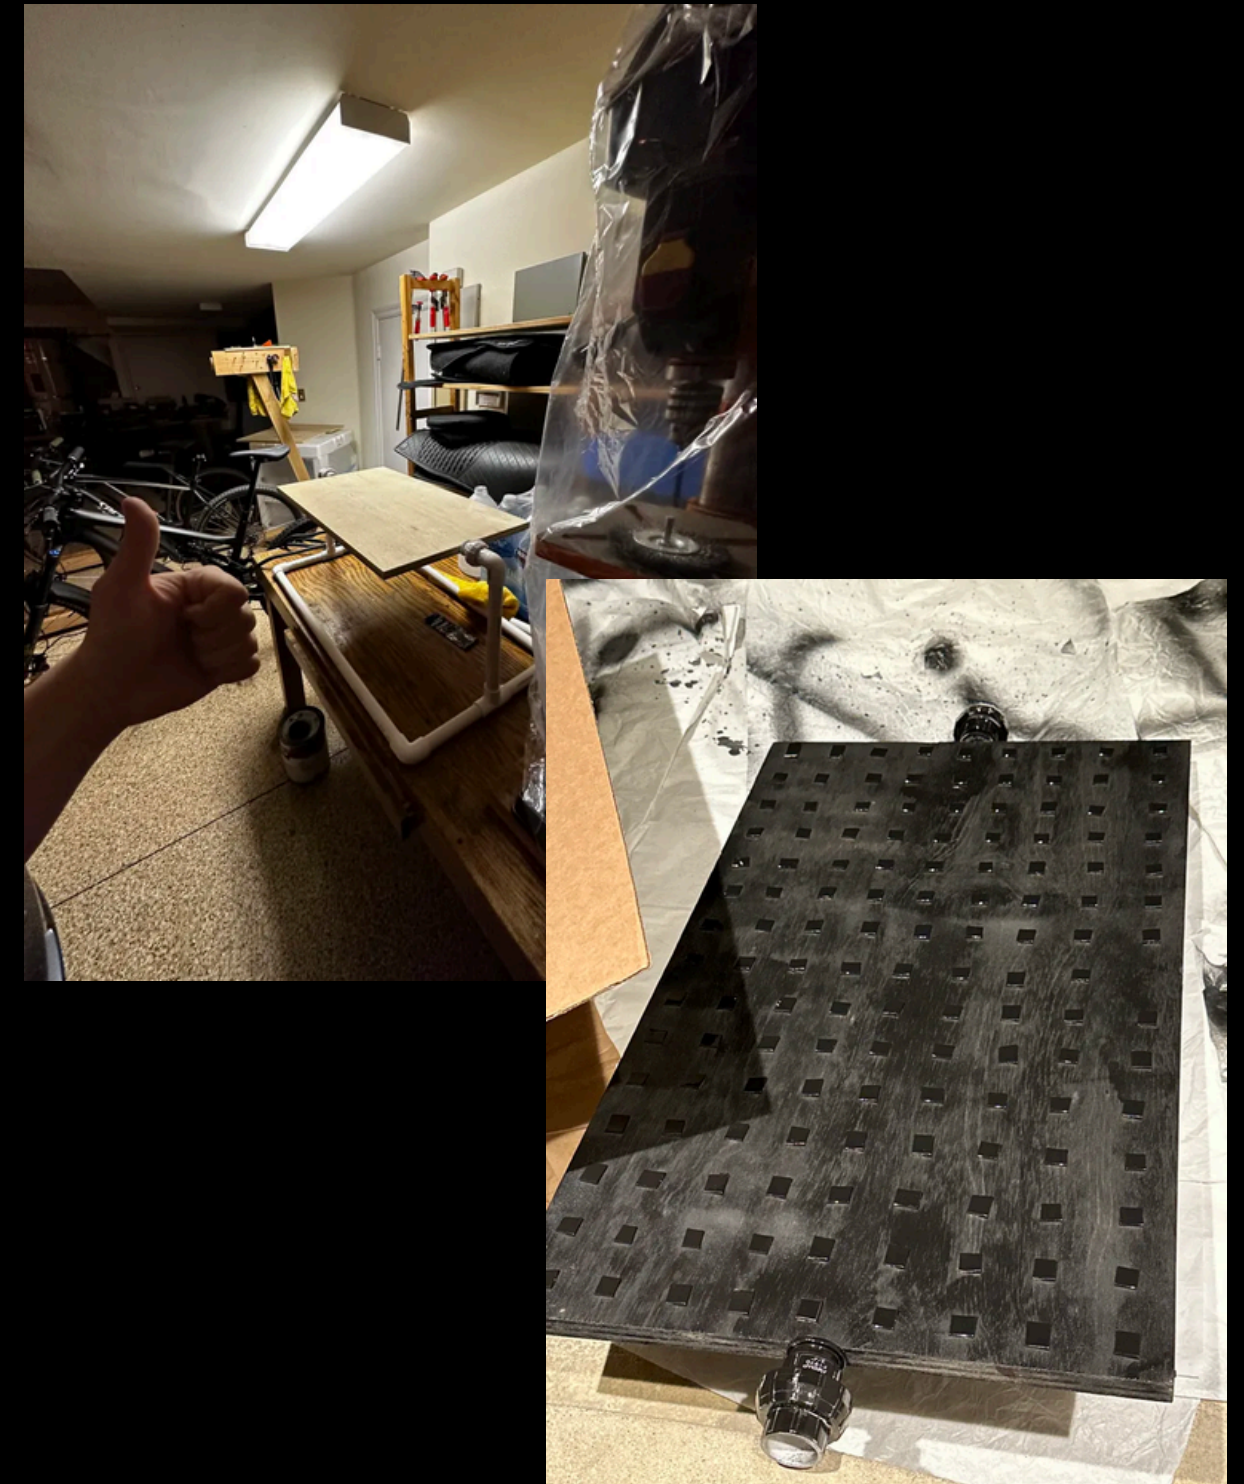

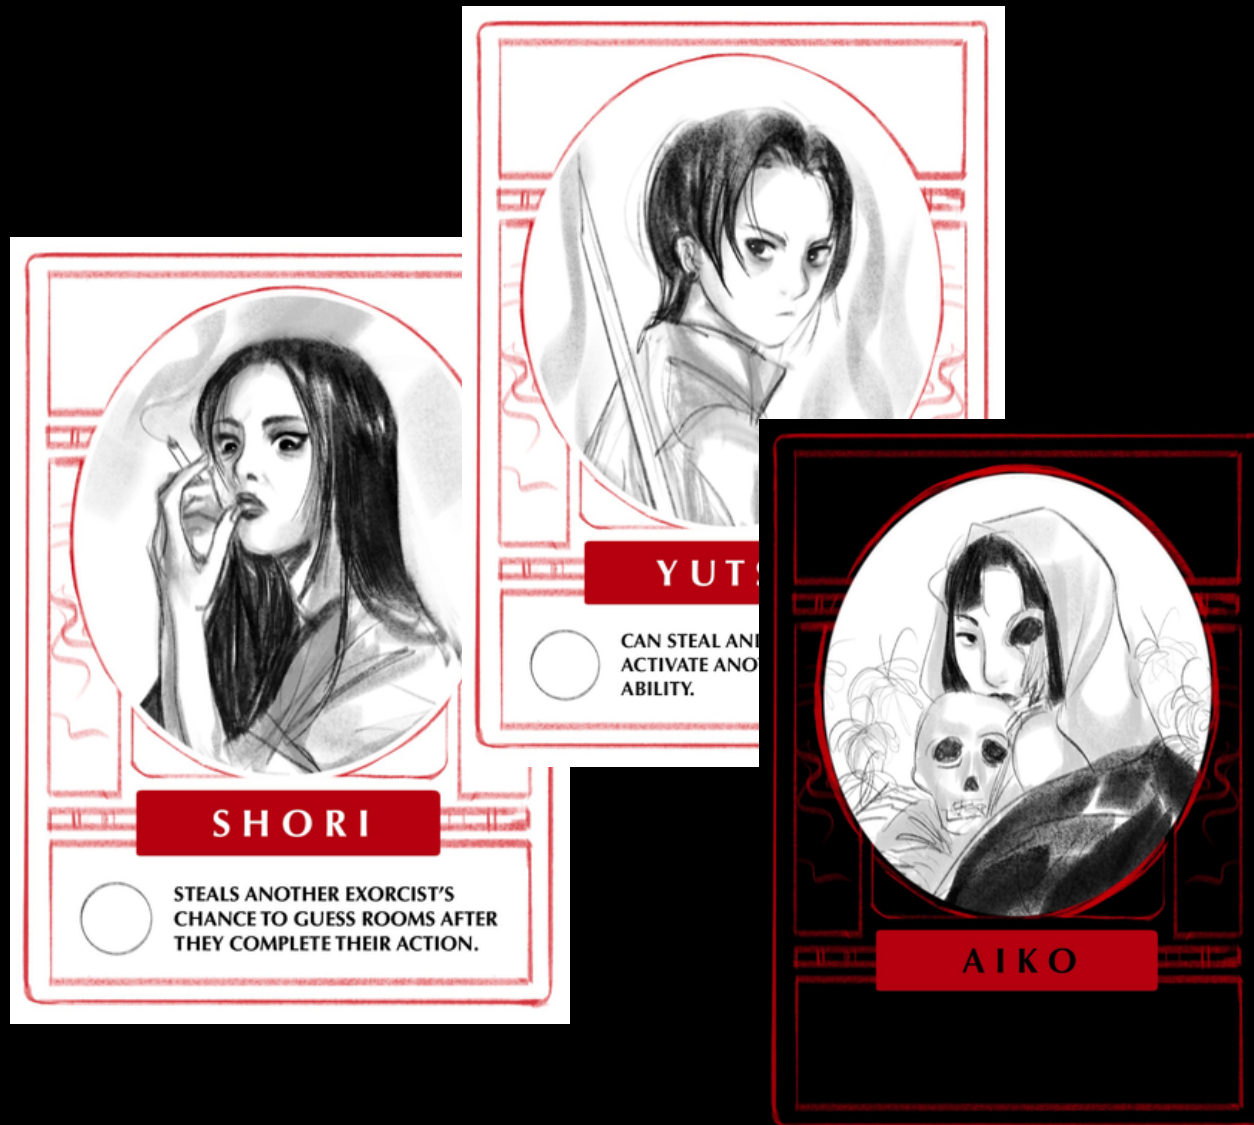

- On week13, we decided to learn from our first in class play test, where we discovered that the mechanics we designed for two boards are not understandable and relatable (Leading to confusion), so we spent a lot of time to reconsider our game mechanics.

This time, we decided to make our game easier, and also rephrase our rule book to minimize confusion.

How we developed our game - W14

- On week14, we mainly worked on game components design, because our game addressed heavily on game aesthetics and dramatic premises

- Combined with some big modifications, our game is finally playable!

How we developed our game – W14

- In our final version of iteration, we tried our best to make our rule book understandable by adding setup guidance, diagrams, and also appealing back story to help player get started easily.

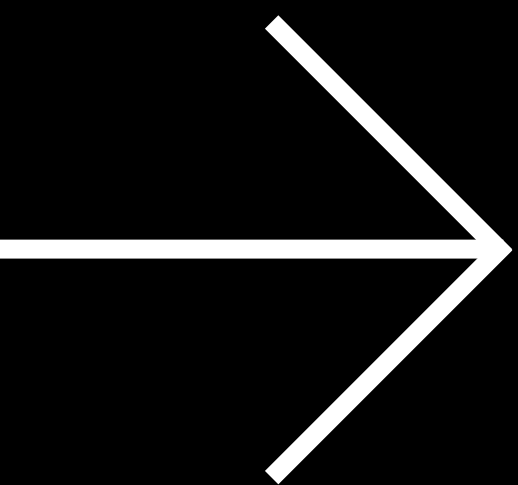

DATA

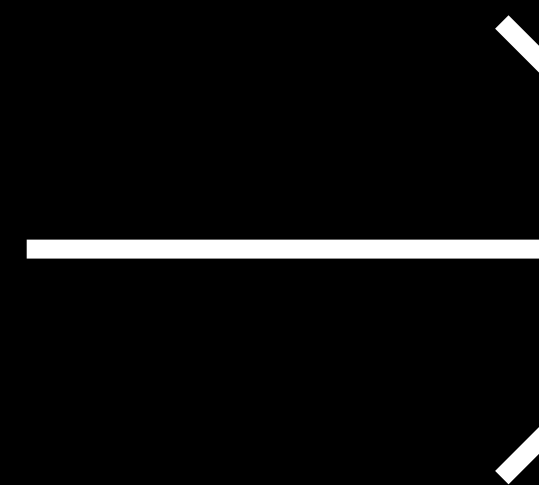

Answers Key		
1 = Strongly disagree		
2 = Disagree		
3 = Neither Agree nor Disagree		
4 = Agree		
5 = Strongly agree		
Except for...		
4. Please rate the OVERALL level of DIFFICULTY of the game		
1 = Too easy		
2 = Easy		
3 = Average		
4 = Hard		
5 = Too hard

		I found the GAMEPLAY in this game to be very ENJOYABLE.	Overall, I felt the RULES were EASY TO UNDERSTAND.	I felt the LIKED the VISUAL DESIGN of this game.	Please rate the OVERALL level of DIFFICULTY of the game.	Overall, I ENJOYED playing at the level of DIFFICULTY I rated above.	I ENJOYED the DRAMATIC ELEMENTS of this game.	I LEARNED this game QUICKLY.	I STAYED ENGAGED while I WAS PLAYING.	This is a TYPE OF GAME that I normally LIKE TO PLAY.	I believed that both of the PHASES were NECESSARY.

WORDS FROM THE LEADS

<While working on other roles here and there, the main objective for my role was to manage and instruct the group to their necessary assignments according to due dates.>
<People all have different availabilities! Management! 👍>
<Need to adapt to everyone else's availabilities while managing the group as a whole.>

Producer

- A lot of repetitive work
- Refining and developing concepts can be time consuming
- Obtaining the right supplies
- Everyone is an artist

Lead Artist

- The main goal for me is to make our game understandable, playable and enjoyable
- As designer, I appreciate this experience of working on this SOPHISTICATED game with my wonderful teammates, I learned a lot from it.

Lead Designer

- 
- Host as many iterations as possible
 - Take notes; the more the merrier
 - Validate and affirm player feedback
 - Revise and adapt rules to players' needs

Usability/Playtest

What we would do next with our design

- Add more games that the yokai and exorcists could play
- Give more interactive abilities to the yokai
- Refine the design for the player tokens and paintings
- Add more characters with unique abilities

Design process takeaways

- Adding visuals to the rulebook helped players understand our game more
- Having characters helped the immersion of our game
- Adding collectible tokens allowed for the players to explore the board
- Don't get lost in adding so many game mechanics

- Not to be so ambitious without a specific plan
- It takes so much time and failure to design big games
- Ask for help when needed
- In person meetings are crucial, even if they're short

What our
team
learned

- Thanks to Professor
Brooks, Boston, and
Kevin 👍👍👍
